## **COMMUNITY USE OF SCHOOL FACILITIES**

It is the intent of the District to make school facilities available for public use to the greatest extent possible without infringing on their primary purpose – the education of children. Where assessed, fees are not intended to profit the District but rather to defray the additional costs of public use, which should not rightly be borne by the taxpayer at large.

Use of school facilities by community and other authorized groups shall not constitute an endorsement by the District of any organization or group.

The District reserves the right to assess building/facility use fees, to refuse approval, or to cancel approved use of a school building or facility. Use of buildings/facilities will be denied if an organization intends to use school facilities to engage in conduct that is contrary to federal, state, or local law.

Rental fees and custodial and kitchen personnel fees will be set and periodically revised by administrative regulation.

Adopted: November 21, 1978

Revised: June 3, 1986

Repealed by the Board and re-enacted and revised by the Supt.: March 16, 2004
